

FRamework of Innovation for Engineering of New Durable Solar Surfaces

FRIENDS²

Mid term meeting

Seville, April 8th 2016

Final remarks

R. Escobar Galindo (ABG)

1 year of **FRIENDS²** in a nutshell

Success story

- Ground floor for **scientific breakthrough results** within WP1-WP2
- Specialized training in **unique characterization techniques** (WP3)
- Active **participation at international conferences** as the main dissemination element
- Periodic update of the project web page** (news)
- Deliverables submission** up to date

Lessons learned/ Best practices:

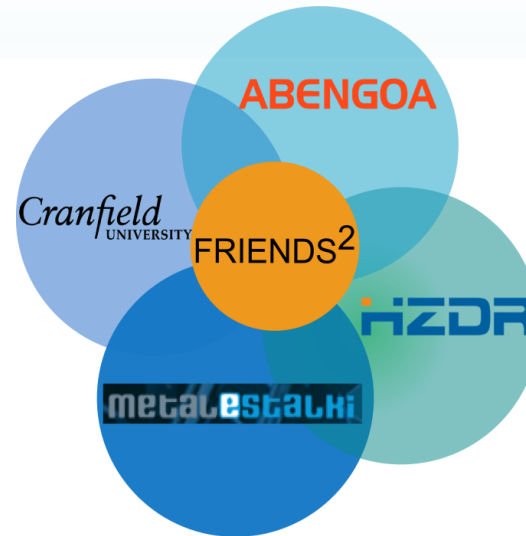

- Organization of **seminars and workshops most effective during secondments**
- Continuous revision of secondment schedule** necessary
- Non-split secondments** only for ESR staff
- Joint secondments** facilitate practicalities (e.g. housing)
- Status of deliverables** (public/confidential) to be revised
- Participation portal reporting**: IT problems to be solved
